

THIS IS WHAT HAPPENS WHEN A FLY LANDS ON YOUR FOOD!

Flies can not eat solid food, so to soften it up they vomit on it.

Then they stamp the vomit in until it's a liquid, usually stamping in a few germs for good measure.

Then when it's good and runny, they suck it all back again, probably dropping some excrement at the same time.

And then when they have finished eating, IT'S YOUR TURN!

BON APPÉTIT!
