Copies of Employee Health Policy and Clean Up Procedure for Vomit/Fecal Accidents

Person-in-charge (PIC) must ensure that food employees are informed in a verifiable manner of their responsibility to report to the PIC information about their health as it relates to diseases that are transmissible through food.

PIC must ensure that the operation have a written procedure for employees to follow when responding to vomiting and diarrheal events. The procedure must address processes to minimize the spread of contamination and the exposure to employees, consumers, food, and surfaces.

Copies of written procedure for using Time as public health control, variance approval and Hazard Analysis and Critical Control Point (HACCP) Plans (If applicable)

"**Variance**" means a written document issued by the regulatory authority that authorizes a modification or waiver of one or more requirements of this chapter if, in the opinion of the regulatory authority, a health hazard or nuisance will not result from the modification or waiver.

"**HACCP Plan**" means a written document that delineates the formal procedures for following the hazard analysis and critical control point (HACCP) principles developed by the national advisory committee on microbiological criteria for foods.

Copies of Level 1 Food Safety Certifications

Ohio law requires all food service and food establishment must always have at least one employee on site with a Level 1 Certification in Food Protection

Copies of Level 2 Food Safety Certifications (If applicable)

Ohio law requires each risk level 3 and risk level 4 food service and retail food establishments must have at least one management or supervisory employee with an Ohio Department of Health (ODH) Level 2 Certification in Food Protection. This certification is obtained through the Ohio Department of Health after completing an approved course (15 hours of instruction and passing an exam). A ServSafe certificate (or equivalent) itself and the level one certificate does not comply with this new rule.

Food Plan Review Application

Disclosure

No persons shall commence construction unless the required plans have been approved. It shall be the full responsibility of said person that construction is done in conformance with the approved plans and specifications.

The approval of plans and specifications shall lapse and become invalid two year from the date of approval unless a substantial portion of the work described in the plans and specifications has commenced by such anniversary date. If CCPH finds that the person developing the food establishment has made a good faith effort to complete the development of the facility within the two year period but has failed for reasons beyond the person's control, CCPH may grant one extension for a specified time not to exceed one year.

Should it be necessary or desirable to make any material change in the approved plans and specifications, revised plans and specifications shall be submitted to CCPH for review, and approval shall be obtained before the work affected by the change is undertaken. Approval of the plan itself does not constitute compliance with the Ohio Food Codes. A pre-licensing inspection of the establishment with equipment in place and operating will be necessary to determine substantial compliance with the Ohio Food Codes.

Approval of these plans and specifications by CCPH does not indicate compliance with any other code, law or regulation that may be required--federal, state, or local. All required permits and occupancy certificate must be obtained prior to licensing.

I hereby certify that the above information is correct and I fully understand that any deviation from the above without prior permission from Clermont County Public Health may nullify final approval.
